## SUMMARY

I'm a Full Stack Developer who enjoys building clean, fast, and user-friendly web applications. I work across the stack creating smooth interfaces, structured APIs, and reliable backend systems. I like turning ideas into practical products, solving problems with clarity, and continuously improving through learning and real-world projects.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Node.js, Core Java, HTML5, CSS3

**Frontend:** React.js, Tailwind CSS, Context API, Redux

**Backend:** Express.js, REST APIs, JWT Authentication

**Databases:** MongoDB, Mongoose, MySQL, Firebase

**Tools:** Git, GitHub, Postman, Render, Vercel

**Integrations:** Razorpay, Cloudinary, Google OAuth, Multer

## PROJECTS

### OGNÉ – Full Stack E-Commerce Platform

[Live Demo](#) • [Source Code](#)

- Developed complete e-commerce platform with product catalog, user authentication, shopping cart, and order management system
- Integrated Razorpay payment gateway for secure transactions with order tracking and invoice generation
- Built admin dashboard with product management, user management, and sales analytics using JWT authentication
- Implemented responsive UI with Tailwind CSS and optimized images using Cloudinary storage
- Used React for frontend, Node.js/Express for backend, and MongoDB for database management

### AI-Powered Code Review & Bug Detection

[Live Demo](#) • [Source Code](#)

- Created web-based tool to analyze JavaScript, Python, and Java code for errors and improvements
- Integrated AI API for intelligent code suggestions, bug detection, and performance optimization tips
- Implemented real-time code analysis with syntax highlighting and detailed error reports
- Designed clean user interface with code editor and suggestion panels for better user experience

### AI Virtual Assistant – Real-Time Chat Application

[Live Demo](#) • [Source Code](#)

- Built real-time chat application with both text and voice interaction capabilities using Gemini APIs
- Implemented user authentication system with secure session management and profile customization
- Added multimedia support for image sharing, file uploads, and voice messages with proper storage
- Developed responsive design that works seamlessly across desktop and mobile devices

## EXPERIENCE

### Full Stack Developer

2022 – Present

*Personal Projects*

- Developed and deployed multiple full-stack web applications using MERN stack technologies
- Designed and implemented RESTful APIs with proper authentication and error handling
- Integrated third-party APIs including payment gateways, cloud storage, and OAuth services
- Managed application deployment on cloud platforms and maintained version control using Git

## EDUCATION

### B.Tech in Computer Engineering

2022 – 2026

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur
